WORK EXPERIENCE

Web Developer | 2024-2025

Meril Life Science

- Designed and implemented RESTful APIs using Django REST Framework.
- Managed relational database schemas, queries, and migrations.
- Integrated external APIs and handled JSON-based communication between frontend and backend.
- Collaborated with UI/UX and frontend teams for seamless integration.
- Ensured code quality, performance, and adherence to security standards.
- Wrote documentation for backend modules and deployment steps.

Ui Designer and Developer Intern | 2024-2024

Zoople Technologies

- Created visually pleasing and high user centric designs using figma and convert it to code.
- Collaborated with senior developers to develop and documentation of the project
